SUMMARY

A motivated and detail-oriented B.Tech graduate seeking an entry-level web development position. Skilled in full-stack development with React.js, Node.js, Express.js, and MongoDB. Proven ability to create dynamic and responsive web applications, implement secure authentication systems, and manage databases. Completed notable projects like a food delivery app and a travel listing platform.

EDUCATION

Guru Nanak Institute of Technology

05 2020 – 05 2024

B.Tech - **CGPA - 7.36**

Hyderabad, India

Sri Gayatri Junior College

05 2019 – 04 2020

XII - MPC - **Percentage - 94%**

Hyderabad, India

St.Aloysius High School

04 2017 – 04 2018

X - **Percentage - 95%**

Hyderabad, India

COURSEWORK / SKILLS

- OOPS Concept
- Full Stack Web Development
- Database Management System (Basics)

PROJECTS

Tomato | React.js, Node.js, Express.js, MongoDB, CSS

07 2024

- Developed a dynamic food delivery application utilizing the MERN stack, enabling users to browse the menu, place orders, and track order status in real-time.
- Implemented user authentication and authorization using JSON Web Tokens (JWT), ensuring secure access to the platform and allowing only logged-in users to place orders
- Designed a responsive and user-friendly frontend using React.js, providing an intuitive user experience across various devices.
- Built an admin panel for order management, allowing administrators to update order statuses (e.g., preparing, delivered) and manage food items displayed on the menu.

WanderLust | Node.js, Express.js, MySQL, JavaScript, HTML, CSS, Bootstrap

06 2024

- Developed a web application named "Wanderlust" that facilitates exploring travel destinations, managing pricing information, and enabling user reviews through REST API's.
- Built a secure authentication system using NodeJs, ExpressJs, and Passport to manage user logins and access control.
- Integrated MySQL database to store and retrieve travel data, ensuring data integrity and scalability.
- Designed and implemented RESTful API's to handle CRUD operations for travel listings and user reviews.

ChatterBox | React.js, Node.js, Express.js, MongoDB, Socket.io

08 2024

- Developed and deployed a real-time messaging chat application using React, Node.js, Express.js, MongoDB, and Socket.io.
- Implemented real-time communication and user authentication features, enhancing application security and user experience.
- Designed functionalities for displaying online users and user search, improving overall usability

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Technologies/Frameworks: JavaScript, React.js, Node.js, Express.js, MongoDB, HTML5, CSS3

Tools: Github, Rest API

CERTIFICATIONS

- Java - KG Coding
- CSS
- HTML

ACHIEVEMENTS

- Achieved good results in the Joint Entrance Examination (JEE).
- Successfully organized and managed the college fresher party.
